DAVID AGBANIYAKA

Engineer

SUMMARY

A versatile and results-oriented professional, I bring a unique blend of skills in electrical engineering and front-end development. With a proven track record in designing and implementing efficient electrical systems for diverse projects, coupled with a passion for crafting engaging user interfaces, I am actively seeking new opportunities to contribute my expertise and drive innovation.

WORK EXPERIENCE

Software Engineering Program | ALX Africa

November 2022 — November 2023

- Successfully completed a comprehensive software engineering program provided by ALX, covering key foundational topics in software development, including algorithms, data structures and software architecture.
- Engaged in hands-on projects and coding exercises, fostering a deep understanding of software engineering best practices and real-world application.
- Collaborated with peers on team projects, honing my ability to work in an agile and collaborative development environment.
- Gained proficiency in Shell, Git and Javascript, enhancing my coding and problem-solving capabilities.

Graduate Electrical Engineer | Ikeja Electric

April 2022 — March 2023

As an Electrical Engineer Intern at Ikeja Electric, I actively contributed to the success of the electrical engineering team, gaining valuable hands-on experience in power distribution and systems optimization. Collaborating with seasoned professionals, I played a key role in enhancing the efficiency and reliability of electrical systems critical to the company's distribution operations.

Electrical Engineer Intern | ETCO Nigeria

April 2018 — August 2018

As an engineer intern for a construction company, I played a vital role in project coordination and site supervision, contributing to the successful execution of construction activities. I collaborated with diverse teams to ensure adherence to project plans, monitored progress, and participated in quality control inspections, demonstrating my commitment to efficient project delivery.

VOLUNTEERING

Gamr AFRICA

June 2023

As a Technical Support Specialist volunteer for the Gamr X 2.0, I played a pivotal role in ensuring the seamless operation of gaming setups and technical components throughout the event. Leveraging my technical expertise and passion for gaming, I contributed to the overall success of the event by delivering exceptional technical support to participants and attendees.
